Ideas and Suggestions

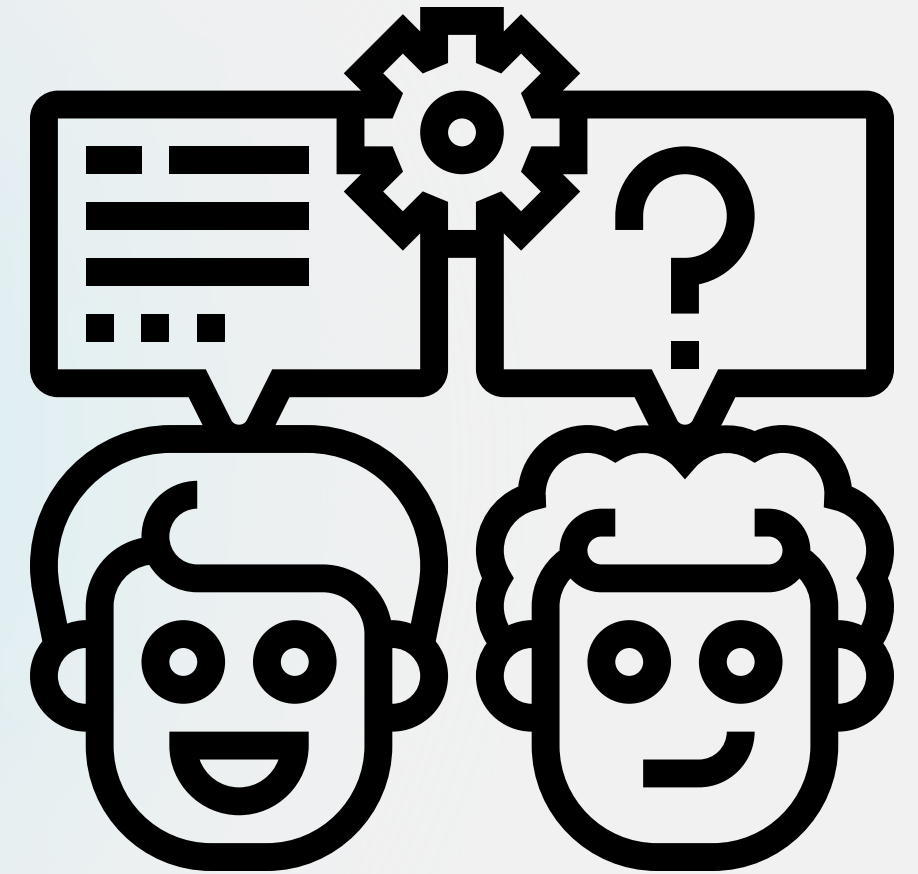

- **All suggestions** must be **backed** by a **well-founded argument**,.
- This ensures every idea has a purpose and adds value to the project.
- We prioritize well-reasoned ideas that align with our goals.

ARGUMENTATION

EXPLANATION OF A WELL FOUNDED ARGUMENT

PRE-PRODUCTION

Pre-Production Focus

- We are currently in the **pre-production** phase.
- Our focus is on **concept** development and **early prototypes**.
- Production tasks, like final art and assets, **will come later**. For now, it's all about **refining ideas**.

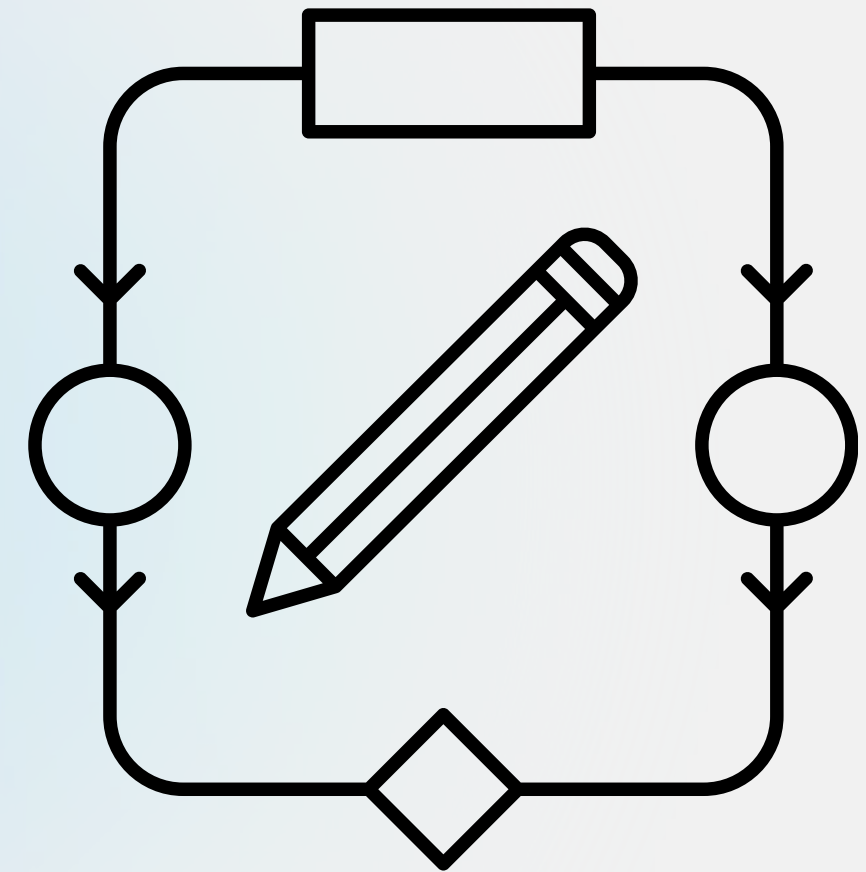

PRE-PRODUCTION

Concept Work for Art

- **Concepts** are essential **now**, but **full implementation** happens **later**.
- We're building the visual identity through sketches (concepts) and early designs.

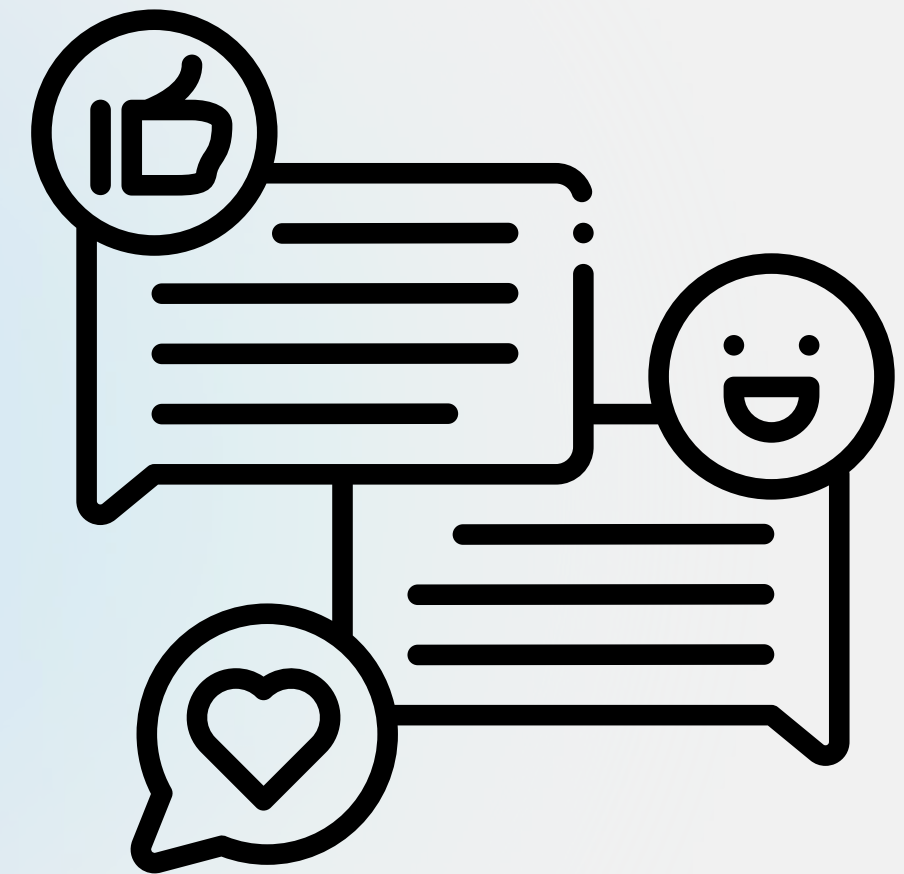

WORKFLOW

Feedback & Iteration Cycle

- **Regular feedback** will be key to refining our work.
- **Each stage** includes a **feedback loop** for improvements and adjustments.
- We'll constantly iterate to ensure progress toward our goals.
